Description

Leslie M. Grant has served the Lord for over 65 years and has written extensively. None of his writings have been clearer or more thought-provoking than his article entitled God's True Ground. It is now in book form. Have we considered that God has given us only one ground or basis for church gathering-the one body. Have we considered whether our "church" meets together on that ground? Using a chart, Leslie Grant then briefly compares God's basis for gathering to eight other "grounds" that are popular today.

Roger Daniel, who has written especially for younger people for over 50 years, then expands on these eight other grounds to show how far from Scripture most church-gatherings have become. You may be shocked! These other forms of church-operation are:

- Independency
- Denominationalism
- Ritualism
- Clerisy: the Clergy-Laity System
- Legality
- Unholy Associations
- Evil Conduct
- False Doctrine

Be prepared for some interesting and thought-provoking reading!
