Description

Once, it was possible for the whole Church to be gathered in one place at one time as the body of Christ. Can we still meet together with the same simplicity that the Church once knew? And just what are the meetings of the local assemble today?

This book will address these and other important questions. Then it will help the reader think about the purposes behind the different meetings. It will also discuss a little about how we can support one another in personal ways such as Sunday School, camps and gospel outreach ministries.
