## **Description**

Many have written on the gospel of John, and the truth therein presented is inexhaustible. This new commentary in modern language takes up John's Gospel as presenting to us the Lord Jesus as God manifest in the flesh, His absolute sovereignty and many of His miracles. It begins when He was a full grown Man, the "Logos," who was God and was with God in the past eternity. The book ends with the Lord Jesus still on earth, not as yet returned to glory. Yet He gives directions for His own during the time of His absence. We think you will enjoy this modern-day commentary. May It make you "Search the Scriptures!"
