Description

We are living in very troubling yet interesting times and the question of the Lord's coming is on the minds of many. *He Must Reign* looks at various prophetic subjects including The Future of Israel, The Future of Western Europe, The Antichrist, The Millennium and much more. It includes a chapter on the methods and principles of interpreting prophecy in the Bible. It was originally written in Dutch but was translated into English and appeared in serial form in the magazine, *Come and See*. This is a doctrinally sound, thorough, but very readable study of "last things." The purpose of Bible prophecy is not to satisfy our curiosity about future events, but to reveal Christ to our hearts and to see that "He Must Reign"!
