Description

Worship—hardly any two people can define it or define it the same way as presented in Hebrews. The vast majority of professed Christians turn to Jewish ritual as how to worship today—to a greater or lesser extent. But Christian worship is far different and is contrasted particularly in the book of Hebrews. If we don't understand our high position today—boldness to enter heaven itself, directly before the throne of grace, spiritually, with no more conscience of sin, our sins purged away—we will never appreciate the blessedness of Christianity compared with the "distance" and "uncertainty" given in Old Testament ritual and procedures. We will not see what a slur these human ideas are to our blessed Lord! Yet an understanding of those Old Testament rituals gives us much insight into what is today's reality.

Although the subject is far greater than what is presented in this little book, we were blessed in preparing this writing from the mid-1800s for a 21st century audience. We think you will likewise be thrilled as maybe for the first time or maybe as a reminder, the wonders of Christian worship are brought before us.

We believe the writer is James L. Harris (1793-1877), a Church of England minister who left that position to simply gather with those gathered to the name of the Lord Jesus. Not much is recorded of his life except that his books were recommended as scholarly and helpful.
