Love is the great theme of the Song of Solomon - the love of Christ. Under the figures of the Bridegroom and the bride, it speaks of all those of His own. What is more important than having the affections drawn out to Christ! There are other songs in Scripture - songs that celebrate creation, songs that speak of victory, and songs of praise and thanksgiving - but the theme of this song is love - the love of Christ and, therefore, it is also called the Song of Songs.
