Description

For most of us Christians, ETERNAL LIFE simply means that we will live forever in heaven. We are like a person who owns a precious gem or rare painting, but has no idea of its intrinsic worth or great value.

This serious study examines in detail the rich nature of eternal life. It develops such terms as Word of Life, Light of Life, Bread of Life, Gift of Life, Abundance of Life, etc. It leads to a better knowledge of the living God. It also seeks a balance between the extreme views on eternal life which have sadly divided Christians in the past. v

Keen Bible students will be rewarded by reading this work. It challenges us to LAY HOLD OF ETERNAL LIFE in a day of superficial and easy Christianity.
